New Vapormatic Belts for Z Series Combines

Vapormatic is pleased to announce the introduction of a new comprehensive range of belts for the versatile Z Series Combine (2054, 2056 & 2058) & the later 2200 series Combine (2254, 2256, 2258 etc.).

Sourced from a specialist belt manufacturer, this new range provides an economic service solution for the older combines (2000 and 2200 series). Manufactured to OE specifications, these corded belts are built to withstand compression and stretching, especially where the stresses of torque are experienced most. To avoid loss of performance or slippage, these belts are made from high quality, oil resistant, anti-static rubber, making them a good choice for tough environments and harvesting conditions.

These new parts complement Vapormatic's wide range of combine products to cover many applications and keep your machine running efficiently.

For a full list of parts and cross references, please visit www.vapormatic.co.uk

Drum Variator Belt (VLM9126) Elevator Belt (VLM9102) Feed Housing Belt (VLM9098) Grain Elevator Belt (VLM9124)
