# Universal Diamond Blades

## The essential construction tool

Universal Diamond Blades are designed for maximum performance and long life. The 10mm angled turbo segments and narrow gullets reduce the chance of segment loss and make this blade one of the fastest cutting general purpose blades on the market. Manufactured using premium quality diamonds and a strengthened, pre-stressed metal body.

# Zirconium Flap Discs

## Zirconium Flap Discs

Premium quality flap discs for metal, painted surfaces, masonry and wood; particularly fast and effective on rust removal, blending and finishing. The layered zirconium abrasive cloth is fixed to a lightweight fibreglass backing to absorb vibration; making this product incredibly strong and durable. These discs can last many times longer than a conventional disc and are manufactured to O.S.A. safety standards.
